

4-5 November 2026 | Rolling Hills Hotel, Seoul Metropolitan, Republic of Korea

Join Global Mobility Leaders in Korea

Hosted by FISITA President ChangHwan Kim, Executive Vice President of Hyundai Motor Company, the FISITA World Mobility Summit 2026 will bring together senior technology leaders, engineering executives and industry decision-makers from around the world.

2026 Theme

Embracing the complexities of Mobility

Discover the technologies and strategic challenges shaping the future of mobility, including:

- Software-Defined Vehicles (SDV)
- Automated Driving
- Energy Infrastructure
- Artificial Intelligence
- Battery Technology

Through keynote presentations, executive discussions and high-level networking, gain valuable insights and connect with global industry leaders.

Attend • Sponsor • Exhibit • Partner

Showcase your organisation, build strategic connections and engage with an influential international audience of mobility experts and decision-makers.
